

Southpark Records - Label presentation

Southpark Records is a deep & tech house music label founded in 2009 based in Switzerland. The label promotes all the evolution of techno music always looking for the best sounds of the moment and the past. Southpark Records is always searching for new talented artists around the world to release good music and to promote new young artists. This label was born on the basis of a multiyear experience in the musical scene and a vast underground musical culture of the owners Kenny Ground and Dave Martins.

In 3 years the label has been releases over 40 albums with the contribution of artists such as Wally Lopez, NTFO, Ron Costa, Hollen, Luca M, Mario Miranda, Roberto Palmero and many others.

Respected by many great artists worldwide, the label receives every week many positive feedbacks from the music that are promoted by different channels very interesting. Southpark tracks are played and charted by artists such as Mark Knight, Luciano, Marco Carola, Richie Hawtin, Martin Landsky and many others.

Southpark Records - Promotions

The label has two systems for online feedbacks of various artists with over 500 good artists who regularly download and play Southpark tracks around the world. We rely on the company Press & Play PR for the delivery of our tracks to great artists with a system of over 900 dj's and producers.

In addition, the label enjoys regular newsletter with over 3000 personal addresses from the music industry. We rely also on Internet with sites like ibiza-voice and regularly deliver tracks to the top 50 European radio stations where they are included regularly in the peak programs of the global underground scene.
